Alternatives North

AN is a registered non-profit society in the NWT

WHO ARE WE?

Alternatives North is a coalition of groups and individuals committed to building, strengthening, and defending social and economic justice. We are based in the NWT, and work on local, national and international issues.

We began in 1992, when several labour, church and women's groups came together. Since then, we have developed links with environmental and anti-poverty groups and community-minded small businesses.

OUR MANDATE

Alternatives North strives to:

- * develop and promote alternative policies that foster a people-oriented society;
- * achieve a more equitable distribution of wealth and power among the people and regions of the North and Canada;
- * turn back the corporate agenda and promote truly fair trade;
- * maintain and enhance Canadian social safety nets (e.g., public health care);
- * enhance the value and dignity of human labour;
- * create a more vital and participatory democracy;
- * advocate human and ecological well-being; and,
- * encourage cooperation in action among social justice seeking organizations.
